IBBC

IBBC – Implement Bus Breakaway Connector

ISO 11783-2

The NEW BUS Breakaway Connector (IBBC) from Member's is an innovative connector for CAN based implement systems. The Member's IBBC makes it possible to connect and power all implements and systems that require ISOBUS communication. The necessary electronics to enable communication on a highly intelligent level are fully integrated. The IBBC maintains full compatibility with ISO 11783-2 standard insuring the implement communication with tractor or construction vehicle.

IBBC

PLUS

- Fast assembly even with the cover closed.
- Open/Lock handle system can be used left or right.
- Perfect sealing (Water and Dust).
- "Lock in a Click" exclusive system.
- Innovative Ergonomic.
- Maximum reliability even under the toughest conditions.

THE SYSTEM

4P CONNECTOR
ECU/Pass-Through
for Tractor

CONTACT SLEEVES
cables 2÷3 mm²
cables 5÷10 mm²

Corrugated tube cap
for NW17

ADAPTER
NW17 to NW13

90°

STRAIGHT

TERMINATING BIAS CIRCUIT (TBC)
Connector acc. to ISO 11783-2

⌚ THE FASTEST ONE HAND OPEN/LOCK SYSTEM

Impact and chemical resistant PLASTIC cover and lid made from materials chosen for their impressive ability to withstand the aggressive liquids and materials used in the agricultural industry and provide extended life in abusive environments.

WATERPROOF
LOCK SYSTEM
Impenetrable to water
and dust.

FAST-SAFE-SIMPLE
Easier to use by operator less
assembly and mounting time
required.
